Supt of Gardens
For Report

(Sg) A. P. T. 6. 10. 85

Hon the Colonial Secretary

It may be that the Hon Committee
had not a copy of my report when they
addressed the Colonial Office.

A Committee has been commenced.

great progress has already
been made in getting a
collection of Native plants
together.

I have already invited
the public through the
Medium of ^{my} Reports to
send the specimens requiring
naming & many have
accepted themselves of the
invitation.

It is my intention if I can
secure the assistance & assistance
of the M. Socy of the U. S.
Academy to visit on
a reference being made by
correspondents to the local
Gardens in the best
instances.

The Dept of the Gardens or
Gardens here has no power
or opportunity of preventing
collection of plants being sent
to New direct or any other
edge of which such may
be sent.

the Government of*

EXTRACT FROM A LETTER FROM THE DIRECTOR OF KEW GARDENS TO THE
COLONIAL OFFICE.—*Dated 30th of October, 1884.*

The institution of such local herbaria in connection with the various Colonial Botanic Gardens is a work of the highest utility. Without an institution of the kind, we are burdened with the task of naming and identifying for our correspondents year after year the same plants. The preservation at each botanical centre of accurately named types of the vegetation of their respective countries obviates this tax, and sensibly relieves our overburdened correspondence. It becomes easy to sift out on the spot from collections the new and undetermined specimens, which our staff can then examine and report upon with expedition.

It is very important that such a permanent collection should be protected from the ravages of insects. Mr. Ford has probably taken steps to provide for this, but it may be useful to give the composition of the fluid in use at Kew for the purpose :—

Methylated Spirit	1 gallon
Corrosive Sublimate	$\frac{1}{4}$ lb.
Carbolic Acid	$\frac{1}{4}$ lb.

With this the specimens are brushed over once for all after they are mounted.

No minutes should be written on this page. A separate half sheet to be used if required.

Hon. Sol Secretary

I have perused Mr Dyer's letter
with much pleasure. Our Herbarium
is now being arranged and named
and the kind offer of the Her-
barian to aid us in naming
different things is very kindly and
very acceptable.

Dear Mr Ridley.

Thanks for yours of 9th
inst.

~~B~~ I enclose a painting
(return it please) of another
Saccolabium. which I
don't know the name of. It
has a flower size of drawing
at each leaf foot & has
altogether (the plant being a
large one) about 70 of them.
Can you name it for me.

C Also enclose another
dried specimen which
please name. I send a
piece of plant also the

from a *Davilla* which might send me a copy
must be like *Phalaenopsis* its sure to be awfully useful.
var.

There is also a
Bulbophyllum A which
is uncommon what is
it. I got 2 or 3 other
kinds which are common
but this being new to me
I -

My *Phalaenopsis* is
not yet out but when it
is I will send you a copy
of the flower.

When you get your
Purpurella look out for

Have orchids yet.

flower it grows at Maxwell's
on 200 ft high tree. flowers
fully, it is difficult to
grow - please name - ✓
have a yellow one also
same habit very similar
do you know it It is
commoner but one can
only get it by cutting large
trees - I got a small plant
of D. Aureum in a patch
of it but can't find any
more plants than the one I
wrote you of. Got it at
Maxwell's also off a tree
the miners had felled -
Send me a dried flower

I am directed by the Secretary
of State to transmit to you for your
information, with reference to Mr
Smith's despatch No 406 of the 17th of
Oct, the document specified in the
annexed schedule.

I have the honour to be,
Sir,

Your most obedient, humble servant
(Cg) Robert G. H. Herbert
The Officer Administering
the Government of the Straits Settlements

Date	Description of Document.
28 th Nov	Copy of letter from New Gardens respecting the formation of a Herbarium at Singapore.

Royal Gardens, Kew, to Colonial Office
(copy)

Royal Gardens, Kew,
November 28th 1880

Sir,

I am ~~directed~~ desired by Sir,
Joseph Hooker to acknowledge the
receipt of your letter of Nov: 27th enclosing
a copy of a despatch from the Acting
Governor of the Straits Settlements
respecting the formation of a colonial
Herbarium at Singapore.

Sir, Joseph Hooker is glad to
observe from the accompanying copy
of Mr (Cantley's) report that the collection
of a herbarium has been actively pushed on.
He does not however, gather from Mr (Cantley's)
statements that anything beyond the
native name is attached to the specimens.
He is of opinion that to be of any real use
they should be as far as possible identified
and arranged according to the Flora of British
India now in progress which include the
plants of the Straits Settlements.

This establishment cannot
of course undertake to determine the
Flora,

flora of a Colony wholesale. But the Staff
is always happy to examine & determine
novel or difficult species which are
communicated to it for the purpose.

Mr Cantley may always therefore rely upon
its assistance if he sends properly
prepared specimens

Mr Cantley's remark that it is not
in his power to prevent persons in the
Colony sending their plants to Kew to be
named is superfluous. It may be taken
as certain that they would not do so
if they could get the scientific names
at the Botanical Gardens. But Sir
Joseph Hooker understands from more
than one independent source that
this is not the case and in fact he
gathers as much from the terms of
Mr Cantley's report in which no
reference is made except to Native
names

I am &c

(Sd.) W. L. Threlton Esq

Sir R. G. W. Herbert K. C. B.

Colonial Office.

No minutes should be written on this page. A separate half sheet to be used if required.

I do not quite understand that the
the concluding remarks of Mr. Dixon's
letter. It might be that he is not fully
aware of the numerous consignments
of plants (Botanical specimens dried and
alive) which have been sent me for
names from time to time, and I am
glad to say that in no case have I recd. letters
of specimens having been returned
without the Botanic names being supplied
whenever they presented the necessary
materials to admit of names being given
them (excepting always the collector's label
to the Department) even since receiving their
papers, dried specimens for Bob Hamlin
have been received from a Singapore collector
and have been returned named.

(Sd) W. H. H.
